-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Part III DETAILED ACTION

Notice to Applicant(s)

1. This action is responsive to the following communications: Amendment filed on 1/13/2006.

2. This application has been reconsidered. Claims 21-40 are pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 21, 23, 24, 25, 34, 35, 37, 38, and 39 are rejected under 35 U.S.C. 102(e) as being anticipated by Ojala (U.S. 6,154,208).

Art Unit: 2626

With respect to claims 21, 34, and 39, Otala discloses a method for configuring a computer (4) to obtain status information for subsequent print jobs to a printer (column 5, line 66 to column 6, line 9), the method comprising: supplying a proxy driver in place of an actual printer driver associated with the printer (column 1, line 66 to column 2, line 5), wherein the actual printer driver includes at least one actual function (column 3, line 66 to column 4, line 5) and the proxy driver includes at least one proxy function (column 2, lines 21-24); replacing a pointer to an actual function of the actual printer driver with a pointer to a proxy function of the proxy printer driver (column 6, lines 49-60 and column 8, lines 3-14), and setting a flag so as to indicate that the computer is able to provide status for print jobs on the printer (column 5, lines 39-60).

With regard to claims 23 and 24, Otala discloses storing an ID of the computer in a registry (column 4, lines 28-43 and column 5, lines 19-30).

With regard to claim 25, Otala discloses the flag is in the registry (column 5, lines 19-60).

With respect to claim 35, Otala discloses a status monitor (column 5, lines 19-30).

With regard to claims 37 and 38, Otala discloses a GDI (column 1, lines 1-3) and a registry (column 5, lines 19-26).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2626

6. Claim 22 is rejected under 35 U.S.C. 103(a) as being unpatentable over Otala in view of Tillery (U.S. 6,032,201).

With respect to claim 22, Otala differs from claim 22 in that he does not clearly disclose spooling RAW data to the printer. Tillery discloses configuring the computer to spool RAW datatype to the printer (which reads on data from a spreadsheet application) (column 3, lines 42-52). Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Otala to spool RAW data to the printer. It would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Otala by the teaching of Tillery in order to improve the efficiency of the system.

Allowable Subject Matter

7. Claims 26, 27, 36, and 40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 28-33 are allowed.
